Preface

Since its inception in 2000, the Department of Environmental Science has been at the forefront of delivering quality interdisciplinary education, research, consultancy and community outreach. Our team consists of energetic, committed, and forward-thinking faculty members who are deeply dedicated to academic excellence and the mentorship of both students and research scholars. We take pride in being a distinguished department that nurtures an environment of continuous learning, growth and achievement.

I have recently taken on the responsibility of Coordinator of the Department, a role that holds special significance for me. My association with the Department spans over 25 years, beginning as a student, then a research scholar, and eventually as a faculty member. This journey has been incredibly rewarding, and I owe much of it to the unwavering support of my colleagues and peers. As we approach a momentous milestone, our Department's Silver Jubilee in 2025 and preparation for the upcoming NAAC visit, I am pleased to announce the release of a comprehensive departmental profile which reflects our academic and research evolution over the past 25 years.

I find it timely to share some key reflections on our academic and research endeavors. Our Department has earned significant recognition and visibility, extending its impact at both regional and national levels. This success is a result of the collective efforts of our faculty, students, research scholars, and technical and non-teaching staff. Their contributions are evident in the form of research grants, fellowships, publications, placements, consultancies, and outreach initiatives, which are key components influencing our NIRF rankings and NAAC accreditation of the institution. Teamwork and a shared spirit have been central to our progress, yet there is always room to aim higher. While we have performed commendably even in comparison to better-resourced sister departments, it remains essential for us to amplify our achievements and ensure our presence is felt both within and beyond the institution.

As Coordinator, I am committed to fostering a collegial and supportive environment where meaningful, socially relevant, locally grounded, nationally significant, and globally impactful research can thrive. I am confident that our Department will continue to reach new milestones, and I look forward to everyone's continued support and collaboration as we move into this exciting new chapter.

MESSAGE

I am delighted to know that the Department of Environmental Science, University of Kashmir, is releasing its updated departmental profile, coinciding with the Department's Silver Jubilee celebrations in 2025.

The Department of Environmental Science has consistently demonstrated a strong commitment to environmental education and policy development through its diverse outreach initiatives and impactful research activities. The department has been actively engaged in research of significant local and regional relevance, offering valuable consultancy services to both the local and the Central Government departments and agencies, particularly in the area of Environmental Impact Assessment.

I commend the Department for its interdisciplinary approach, active community engagement and outreach, and pivotal role in advancing the regional environmental planning and policy development. I hope, the profile showcases the Department's accomplishments and outlines a forward-looking vision for its future academic and research pursuits.

I extend my best wishes to the faculty, researchers, and students who continue to strive for academic and research excellence of the department.

Prof. Nilofer Khan

Prof. Shariefuddin Pirzada
Dean, Academic Affairs
University of Kashmir

As environmental degradation, climate change, and resource depletion accelerate, the discipline of Environmental Science equips students with critical knowledge and tools to understand, mitigate, and adapt to these challenges. By integrating natural sciences, policy, and sustainability, Environmental Science fosters informed decision-making and innovation essential for a resilient future. Its relevance extends beyond academia, empowering students to contribute meaningfully to societal, ecological, and global well-being. The Department of Environmental Science serves as a vital intersection of natural sciences, policy, and societal influence. It has made a noteworthy contribution in preparing students to effectively understand and address today's intricate environmental issues.

I am pleased to see that the Department of Environmental Science is preparing an updated departmental profile in anticipation of the upcoming NAAC visit and the Department's Silver Jubilee celebrations in 2025. This departmental profile reflects the Department's unwavering commitment to academic excellence, robust research, and a deep sense of purpose. It highlights not only the curriculum and facilities but also the guiding principles that shape its academic journey, including impactful awareness and outreach initiatives.

I extend my congratulations to the Department for its progressive vision and for cultivating an academic environment that blends conceptual learning with real-world application. I am confident it will continue to nurture students and researchers who will make meaningful contributions to both the academic world and society at large.

Prof. Mohd Sultan Bhat
Dean Research,
University of Kashmir

The Department of Environmental Science at the University of Kashmir having impressive research footprint in the University's research landscape, wherein impactful research addressing region-specific environmental issues with broader global relevance and societal importance is being carried out. I am pleased to see that the Department of Environmental Science is coming with an updated departmental profile in anticipation of the upcoming NAAC visit and the Department's Silver Jubilee celebrations in 2025. This departmental profile highlights the Department's research strength, thrust areas, national and international collaborations, and the vibrant scholarly ecosystem it has nurtured. I am happy to congratulate the faculty members and research scholars of the Department of Environmental Science for their contribution in the field of research which is reflected from the grants earned to the tune of Rs. 8.9 crores from premier funding agencies like DST, DST-SERB, NMHS- MoEF&CC, MHRD, JKDST, and the J&K Government, in addition to ₹1.16 crores in women-specific fellowships and ₹35.4 lakhs through consultancy projects. The publication profile of more than 423 publications in high-impact journals and 24 book chapters is testimony to the strength and dedication of the Department. The recognition of faculty members in the field of water pollution, ecology and biodiversity, and air pollution and Environmental Impact Assessment at the National level is equally laudable.

I appreciate the research work being carried out at Department of Environmental Science in the field of water pollution, water resources, aquatic systems like lakes, wetlands, stream, rivers, springs, groundwater, micro plastic pollution, waste water, air pollution and solid waste management, terrestrial ecology, agriculture, climate change etc. which is socially relevant, locally beneficial, nationally significant, and globally impactful. I trust the Department will keep advancing research that aligns with current needs, ensuring it stays relevant and competitive within the evolving research landscape both nationally and internationally.

Prof. Mohd Sultan Bhat

Prof. Gh. Jeelani
Dean School of Earth and Environmental Sciences,
University of Kashmir

The unprecedented human influence on Earth's climate and ecosystems underscores the role of Environmental Science in the university curricula for providing sustainable solutions to many environmental problems. The interdisciplinary field bridges the gap between scientific understanding and policy action, enabling us to address complex environmental challenges such as climate change, biodiversity loss, pollution, population explosion, and unsustainable resource use. As the world grapples with the consequences of ecological imbalance, universities have a pivotal responsibility to foster a generation of environmental thinkers and problem-solvers. Environmental Science not only enhances scientific literacy but also promotes sustainability, ethical stewardship, and informed governance at local, national, and global levels. By embedding this subject firmly within higher education, institutions empower students to drive transformative change and contribute meaningfully to the protection of the quality of the Environment.

This Departmental profile of Environmental Science offers valuable insight into the Department's academic strength, curriculum diversity, faculty expertise, student engagement, and community outreach, and reflects a commitment to excellence both in academics, research and consultancies, which is aligned with Vision, Mission and Core values of the Department.

As Dean of the School, I take great pride in the Department's achievements in academics and research and its vision for the future. I look forward to continued progress, deeper collaborations, and impactful initiatives that promote environmental stewardship, environmental leadership and justice, professionalism, and science policy-society connect.

I hope the Department will continue to pursue science and solution-based research which is demand driven and translational to remain relevant and competitive in changing research landscape both at national and international levels.

ABOUT THE DEPARTMENT OF ENVIRONMENTAL SCIENCE

Established in the year 2000, the Department of Environmental Science began offering M.Sc. and Ph.D. programs in 2001 and 2002 respectively, under the leadership of Prof. A.R. Yousuf. Since its inception, the Department has played a pivotal role in delivering high-quality interdisciplinary education, research, consultancy, and outreach. Our faculty comprises young, dynamic, and dedicated professionals committed to academic excellence and guiding both students and research scholars. We are proud of our standing as a distinguished department that fosters an environment of growth, learning, and success.

Environmental Science, which touches every aspect of human existence, has become increasingly significant in the Anthropocene era. Our curriculum is comprehensive, covering a wide range of subjects such as Environmental Pollution, Chemistry, Geoscience, Toxicology, Microbiology, Biodiversity and Natural Resource Management, Atmospheric Sciences, Sustainable Development, Mountain Ecology, Environmental Engineering, Environmental Law, Biotechnology, and more. The program is enriched by intensive lab and fieldwork, including ecological tours across the country. From the outset, the Department has evolved into a centre of excellence for environmental education and research, with a focus on regionally, nationally, and globally relevant issues. Our research spans diverse aspects of the environment—physical, chemical, biological, and cultural—highlighting the deep connection between humans and the environment, and reinforcing the importance of the discipline.

Beyond academics, the Department aspires to lead in environmental research. We have made significant contributions to the field, with 502 postgraduates and 109 scholars having earned M.Phil. and Ph.D. degrees. 139 students have qualified for JRF/NET/SET exams, with two Inspire Fellowships and seven (7) WOS Fellowships awarded to our researchers. Our strong placement record reflects the high demand for our programs, particularly in comparison to other science departments. More than 60% of our postgraduates are employed, primarily in education sectors under the JK Government. Our achievements include securing research grants from premier funding agencies such as DST, DST-SERB, NMHS-MoEF&CC, MHRD, JKDST, and the J&K Government. These accomplishments span across faculty, students, and scholars. The demand for our postgraduate program continues to rise due to these consistent successes.

Hands-on experience is a cornerstone of our training, evident through extensive fieldwork, outreach initiatives, and educational tours. The Department also extends technical expertise and environmental analysis services to various institutions. Our research is socially relevant, locally responsive, nationally significant, and globally impactful—informing state-level policy decisions. In the last decade, we have secured research funding totaling ₹8.86 crores, in addition to ₹1.16 crores in women-specific fellowships and ₹35.4 lakhs through consultancy projects over the past 12 years. Our impressive research portfolio includes 419 publications in high-impact journals, 24 book chapters, and 11 proceedings and monographs. Our laboratories are well-equipped with advanced instruments, supporting research in areas such as water and air pollution, freshwater ecosystems, waste management, microplastics, soil studies, climate change, and related fields. Given the evolving environmental and economic landscape, faculty and researchers are encouraged to pursue consultancy projects, extending the practical impact of their research. These projects contribute significantly to industrial growth, environmental protection, and sustainable development, particularly in Jammu and Kashmir. Our consultancy services have supported major initiatives including environmental assessments for hydroelectric projects, industrial estates, road and ropeway projects, and town development schemes.

We invite all stakeholders to collaborate with us in advancing the mission of our Department. Together, we can inspire future generations of environmental scientists and make meaningful contributions to protecting our planet. Let us commit to environmental responsibility and work towards a sustainable and prosperous future for all.

Department of Environmental Science University of Kashmir

Vision

To strive for excellence in teaching, research, consultancy and policy formulation for environmental protection and management

Mission

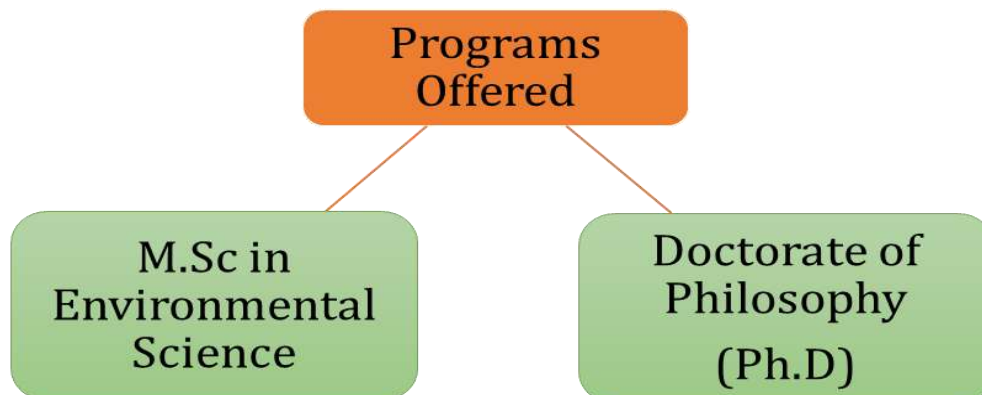

To educate and train students as next-generation thinkers, decision makers and problem solvers in the field of environmental science

Core Values

- ❖ Environmental Consciousness and Stewardship
- ❖ Environmental Leadership and Justice
- ❖ Science-Policy-Society Connect
- ❖ Professionalism, Creativity and Integrity

ACADEMIC AND RESEARCH PROGRAMMES

Master's Degree in Environmental Science

As per the NEP 2020, the Master's Degree in Environmental Science spreads over 1-2 Academic Years comprising 2-4 Semesters respectively. The degree will involve six different types of courses, including Core Course (CC) which will be a compulsory course; and five other courses namely Discipline Centric Elective Course (DCEC), Open Elective Course (OEC), Employability and Entrepreneurship Skill Course (EEC), Vocational Course (VOC), and Skill Enhancement Course (SEC). Every student will have to earn a minimum of 20 to a maximum of 24 credits in each semester. Thus, for the award of a 2- years Master's Degree in Environmental Science will range from 80 to 96 credits, whereas for the award of a one year PG Diploma will require a total of 40-48 credits. Pertinent to mention, that irrespective of the type of the degree, every student has to earn at least half of those credits from the Core courses, and the rest from other courses.

As for mode of entry for the Master's Degree in Environmental Science, the 2- Year Master's Degree will have a basic eligibility of 3-year UG, wherein a student can earn a PG Diploma after completion of one year (should he/she opt for an exit), and a Master's Degree in Environmental Science after completion of two years. However, the students with a 4-year UG Honours/Honours with research, can earn a Master's Degree only after completion of one year.

Students at Khardung La, Ladakh

Programme Offered:	M.Sc. Environmental Science
Duration:	2 Years/4 Semesters
Intake Capacity:	19+6 Self-finance seats
Eligibility:	Any graduate having earned minimum of 12 credits in subject Environmental Science under CBCS /NEP 2020 scheme or Three year B.Sc in Annual / Semester Scheme / B.V.Sc/ B.Tech/B.E.

PhD in Environmental Science

Research Programme:	Ph.D/I-Ph.D
Eligibility:	M.Phil/M.Sc in Environmental Science Candidates who have qualified UGC/CSIR-NET/JRF or ICMR-JRF or ICAR- NET/JRF or SET/SLET/GATE/CEED/GPAT or any other equivalent test declared so by the UGC or have been awarded M. Phil/ NET for Ph.D
Duration:	3-7 years
Residency time:	2/3 years

Students of M.Sc. III Sem Batch 2023 visiting URI II Hydro Power Station

Course Curriculum: The curriculum of the department is developed which is socially relevant, locally need based, national important and globally significant. The curriculum is based on national curriculum framework in alignment with National Missions and SDGS, besides being:

- Broad Based
- NEP Oriented
- Choice Based
- Skill and Employability Oriented
- Focused on Sustainability and Environmental Problems
- Competitive exams

National Missions

National Mission for Sustaining the Himalayan Ecosystem

National Mission on Strategic Knowledge for Climate Change (NMSKCC)

National Biodiversity Mission

National Mission for a Green India

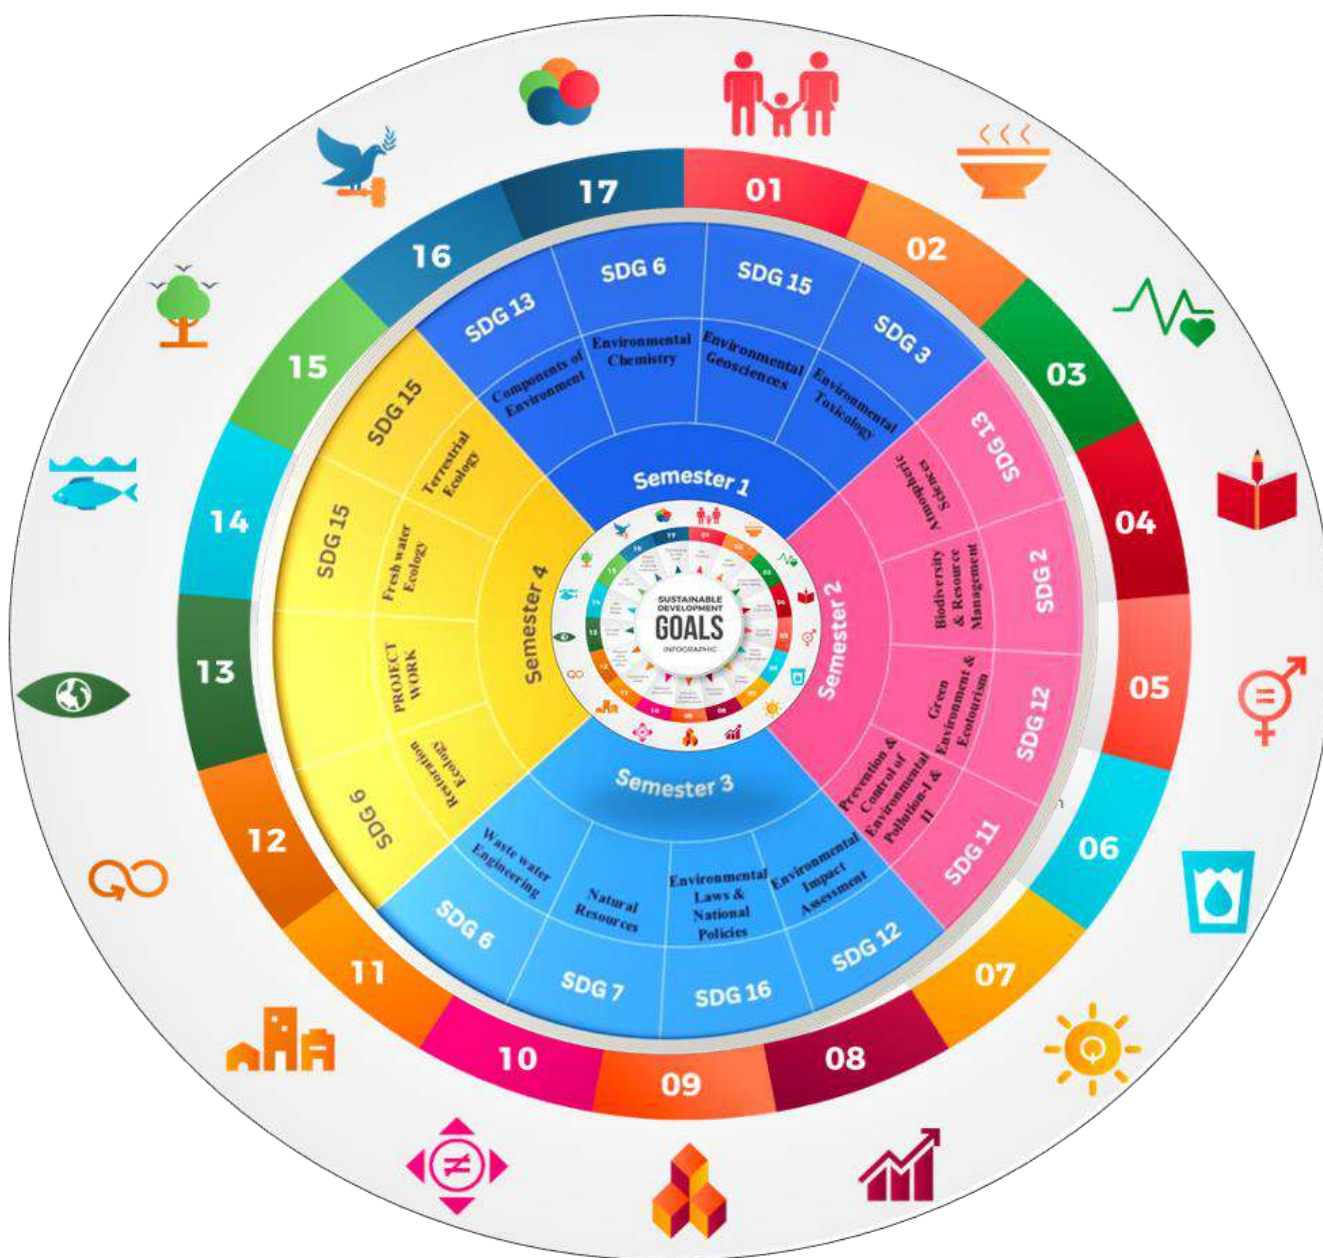

National Biodiversity Mission

Swachh Bharat Mission (SBM)

National Mission for Waste to Wealth

Course connections with National Action Plan on Climate Change

Course connections with SDGs in different semesters

Programme Outcomes:

PO-1: Capable of exhibiting comprehensive understanding of environmental issues and gain a deep understanding of various environmental issues and challenges.

PO-2: Understand the complexity of various environmental problems and develop a problem solving research aptitude.

PO-3: Ability to communicate the research findings with the scientific community as well as with the general public.

PO-4: Capability of applying the knowledge to solve environmental problems and conduct environmental impact assessment and develop environment management plans for different sectors.

PO-5: Capable to perform both as an individual, and as a team member or leader in diverse governmental and non-governmental organizations.

Programme Specific Outcomes:

PSO-1: The detailed knowledge of national and international environmental laws, regulations, and policies governing environmental protection and conservation.

PSO-2: Conveying complex environmental issues to various stakeholders, including policymakers and the general public.

PSO-3: Develop strong analytical and research skills to study environmental problems and propose potential solutions for promoting sustainable practices.

NABET QCI Recognition: Functional Area expert in Water Pollution (WP) and Ecology and Biodiversity (EB)

Dr. Sami Ullah Bhat, a native of Kokergund Yaripora in Kulgam, Kashmir, completed his undergraduate studies at Government Degree College Anantnag and Master's and Ph.D. in Environmental Science from the University of Kashmir, Srinagar. His doctoral research focused on the ecology of freshwater springs in Kashmir. Currently, he serves as a Senior Assistant Professor and is Coordinator of Department of Environmental Science at the University of Kashmir, where he teaches a range of courses, particularly in aquatic science and pollution, and conducts research on diverse inland water bodies such as springs, groundwater, streams, rivers, lakes, wetlands, reservoirs, and wastewater systems. Dr. Bhat has an impressive research profile of over 110 published research articles and book chapters in both national and international journals. He has actively participated in numerous national and international conferences and is passionate about travel, which he uses as a means to enhance his professional skills and field expertise. He has successfully worked in seven Environmental Impact Assessment (EIA) consultancy projects and has secured research funding from prestigious national agencies including DST, SERB, NMHS, and MoEF&CC, Government of India. His work spans multiple freshwater systems like lakes, wetlands, streams, rivers, springs, and groundwater, water policy and Microplastics. A pioneer in the field of crenobiology (study of springs) in Kashmir, Dr. Bhat has made significant contributions to the understanding of spring ecosystems besides deeply engaged in high-altitude lake research in the Kashmir Himalayas. He is currently on panel of expert (2024-2026) for preparation of HKH Spring outlook by HUC-ICIMOD. Through his mentorship, editorial roles, and academic leadership, he has played a key role in bringing water science to the forefront of environmental planning and management. Dr. Bhat holds memberships and fellowships in several respected scientific and professional organizations, including the Freshwater Biological Association, Indian Association of Hydrologists, Indian Meteorological Society, Environmental Society, International Association of Cryospheric Sciences, Aquatic Ecosystem Health and Management Society, and Himalayan University Consortium (HUC). He is currently Editor in Chief of the UGC-CARE listed Journal of Himalayan Ecology and Sustainable Development and Associate Editor of Water, Air and Soil pollution.

NABET QCI Recognition: Functional Area Expert for Air Quality (AQ) and Air Pollution (AP)

Nominated as Expert member by National Green Tribunal (NGT) constituted Committee for implementation of Solid Waste Management in Srinagar City

Member: National Clean Air Program (NCAP)

Member State Advisory Board for Solid Waste Management, J&K State,

Dr. Arshid Jehangir from Naseem Bagh, Hazratbal Srinagar of J&K did his Masters in 2002 and PhD in 2010 in Environmental Sciences from University of Kashmir. He is working as senior Assistant Professor in the Department of Environmental Sciences, University of Kashmir. He has more than 18 years of teaching experience at PG level and 20 years of research experience. His thrust area of research includes Air Water and Soil Pollution, Paleoclimatic studies, Solid Waste Management, Terrestrial Ecology and Noise Pollution. Dr. Jehangir has published more than 60 research papers in various national and international journals. He has successfully executed 5 research projects and 14 consultancy projects as principal investigator. Dr. Jehangir is associated with two international collaborative projects HIMPAC (Himalayan Modern and Past Climate) and Reconstructing ISM and westerlies influence on Holocene hydrology, productivity and regime shifts in NW Himalaya with Deutsches GeoForschungs Zentrum (GFZ) Potsdam and Potsdam University, Germany. He has also earned research grants at national level from premier funding agencies like MoEF&CC, MRHD, Govt of India, ANRF (SERB-DST), JKSTIC and J&K Govt. He is presently having collaborative research projects with IITB, IITD and IISER Mohali.

He has also been deputy coordinator of EIA projects at Kashmir University and associated with development of Environmental Impact Assessments (EIA) of various development projects especially Hydropower, Tourist Hill Stations, Area Development Projects, Roads and Industrial estates. He has organized various regional and national seminars related with different environmental issues in the Himalayan region. He is a member/fellow of various learned professional organizations like National Environment Science Academy (NESA), Indian Meteorological Society, Indian Association for Air Pollution Control (IAAPC), Jammu and Kashmir Science Academy (JAKSA). He is executive editor of UGC-CARE approved Journal of Himalayan Ecology and Sustainable Development and also reviewer of many journals of national and international repute. Besides he is actively involved in various environmental awareness, conservation and protection programmes at state and national level.

Dr. Mohd. Muslim is a native of Habak, Srinagar in the Union Territory of Jammu and Kashmir. He earned his Master's degree in Environmental Science from the Department of Environmental Science, University of Kashmir, in 2006. He subsequently pursued a Post Graduate Diploma in Remote Sensing and Geographic Information System (PGDRSGIS) from the Department of Geology and Geophysics at the same university. Dr. Muslim has received extensive training in Remote Sensing and GIS, including a six-week foundational course in Remote Sensing, GIS, and GPS technologies at the Indian Institute of Remote Sensing. He completed his Ph.D. in Environmental Sciences from Sher-e-Kashmir University of Agricultural Sciences and Technology (SKUAST-K) Shalimar, 2013. He has actively presented his research at various national and international conferences and has several publications to his credit in reputed journals. His work includes significant contributions to national-level reports on wetland and biodiversity mapping in the Kashmir Himalayan region. Dr. Muslim has been involved in numerous research projects at both national and international levels. These include collaborations with the Indian Space Research Organization (ISRO), National Remote Sensing Centre (NRSC), Ministry of Earth Sciences, Department of Ecology, Environment and Remote Sensing (Government of Jammu and Kashmir), and the National Institutes of Health (NIH), USA.

His research spans diverse areas such as: Biodiversity Characterization at the Landscape Level, National Wetland Inventory and Assessment, Mapping Indicators of Desertification, Assessing Climate Change Impacts on Land Use and Hydrology of the Jhelum Basin, Geospatial Monitoring of Priority Areas, HIV Prevention and Trials Network (HPTN-074) Study. He is a lifetime member of the Indian Society of Geomatics and the Zoological Society of India. Dr. Muslim has been engaged in teaching and mentoring at the postgraduate level, guiding students in M.Sc. Geoinformatics, PG Diploma in Remote Sensing and GIS, M.Sc. Environmental Science Design your Degree program. In April 2017, Dr. Mohd. Muslim joined the Department of Environmental Science at the University of Kashmir as an Assistant Professor. Since then, he has supervised 30 M.Sc. students, and currently, seven Ph.D. scholars are conducting research under his guidance. His core research interests encompass Remote Sensing, Geographic Information Systems (GIS), climate change adaptation, and risk assessment.

Get-together of Former HoDs with the Faculty

PROFILE OF FORMER HODs OF THE DEPARTMENT

Prof. A. R. Yousuf

(Apr. 2000- Jan. 2009)

Prof. Yousuf was born on 28th August, 1951 at Malla Bagh (Hazratbal), Srinagar (Jammu & Kashmir), obtained M. Sc. (Zoology) in 1974 and Ph. D. (Limnology & Fisheries) in 1979 from University of Kashmir. He served as post-graduate teacher and researcher in his *alma mater* for more than three decades, from 1981 to 2012. During his tenure at the University of Kashmir, he held several important positions such as (a) Director, Center of Research for Development (CORD) (2000 – 2009), (b) Head, Department of Environmental Science (2000 – 2009), (c) Dean, Faculty of Biological Sciences (2009 – 2011) and (e) Dean, Academic Affairs (2009 – 2011) and Coordinator EIA projects. He retired from the National Green Tribunal, New Delhi as Expert Member in 2016.

Prof Yousuf has published more than 170 research articles and three books in the field of Limnology & Fisheries and have guided 42 M.Phil and 30 Ph. D scholars. During his stay at the University Prof. Yousuf conducted 11 Research and 17

Consultancy Projects sponsored by different funding agencies of the country, organized a number of seminars/symposia and had scientific collaborations with scientists from Sweden and Germany. He has been instrumental in developing Environmental Impact Assessments studies in the University of Kashmir and has been been accredited Coordinator and Functional Area Expert for EIA projects by NABET QCI. He has been awarded gold medal by Indian Academy of Environmental Sciences in 2005, Prof. E P Odum Gold Medal in 2007 and Prof. JS Datta Munshi Gold Medal in 2009 for his contributions to the research and academic field. He has served as member of different scientific bodies both at regional and national level like Jammu & Kashmir State Appellate Authority, Expert Appraisal Committee of MoEF (Govt. of India) for Hydropower projects, Central Wetland Regulatory Authority of India, Scientific Advisory Committee to Chief Minister, Chairman, Scientific Advisory Committee, Dal Lake Conservation Project etc. Prof. Yousuf is Honorary Fellow of Inland Fishery Society of India, Zoological Society of India and National Institute of Ecology, New Delhi.

Some of the significant contributions of Prof Yousuf are

- Establishing the Post Graduate Department of Environmental Science (started in 2001) in the University on sound footing
- He was instrumental in getting the CORD Accredited as EIA consultant organization by NABET, QCI, which was only one among the Universities in India and overall in northern India.
- As Dean Faculty of Biological Science he started the on-line admission process to M. Phil and PhD with complete transparency in entrance tests.
- As DAA he played a vital role in making the whole admission process of selection most transparent, which was highly appreciated by the civil society in general and student community in particular.

Prof. Azra N. Kamili

Prof. Azra N. Kamili hailing from Srinagar has graduated from Govt. Women's Degree College Nawakadal, Srinagar and has completed her Master's and Doctorate in Botany from Department of Botany, University of Kashmir. Presently working as Nodal Person, Department of Botany, Central University of Kashmir. Prof Kamili has held important positions at University of Kashmir, as Head Department of Environmental Sciences, as Director, Centre of Research for Development (CORD), and Dean Faculty of Biological Sciences, University of Kashmir. She has been pioneer worker of Plant Tissue Culture in state and completed her Ph.D on "*In vitro* and *In vivo* studies of *Morus* Species in Kashmir valley". She was actively

(Jan. 2009- Jan. 2012) involved in teaching of various courses/credits in department
(Mar. 2012- Oct. 2013) of Environmental Science and P.G. Course in Microbiology
(Nov. 2016- Dec. 2018) especially Plant Biotechnology, Plant Tissue Culture, Microbial Ecology, Environmental Microbiology and Conservation Biology. Prof Kamili is having more than 200 research articles, 4 book chapters and 9 books to her credit. She has organized almost 45 national and international seminars/conferences/ workshops/ brain storming sessions and has participated in 55 national and international seminars/ conferences/ workshops/ brain storming sessions. Being highly trained and experienced she has been a member of 58 Govt. Bodies/Committees and is also recipients of 08 awards and medals from various agencies.

Prof. Kamili has successfully completed 20 research projects sponsored by various agencies like DST, DBT, MoEF, Government of India. Till date 46 Ph.D and 28 M.Phil students have completed their degrees under her guidance and presently twelve doctoral candidates are working under her supervision, in addition to these more than 80 M.Sc. students have successfully completed their research projects under her guidance. She has established the Mushroom/Spawn production Entrepreneurship unit under DBT projects which have proved highly beneficial for the society especially women and so far 720 trainees have received training from this facility. She is also life member/fellow of various learned professional organisation like Botanical Society of India, Horticulture Society of India, National Environmental Science Academy, Indian Academy of Environmental Sciences, Kashmir University Alumini Association and Kashmir University Teachers Association.

Prof. A. K. Pandit

Prof. A. K. Pandit has a Masters and Doctorate in Zoology from University of Kashmir Srinagar. He has worked on Biotic factor and food chain structure in some typical wetlands of Kashmir while pursuing his Ph.D programme. He has extensively worked in the fields of Ecology - Wetland Ecology, Limnology, Fish and Wildlife Ecology, Animal Ecology, Algology, Trophic Ecology, Production Ecology, Ecosystem Analysis and Conservation Ecology. He has superannuated as a professor of CORD and has worked as Head Department of Environmental Science for a very brief period.

(Jan. 2012- Mar. 2012)

He served for more than 14 year in teaching and research at the department of Environmental Science. He is a recipient of WEC-IIIE-IAEWP Environment Award offered in 6th World Environment Congress by Dr. Shanker Dayal Sharma, Former President of India, for outstanding contribution in Environmental Research. Prof. Pandit has published more than 200 research articles in journals of national and international repute and sufficiently lectured on ecology and environmental issues. He has worked on some research projects which include Conservation of Dal and Nilnag lakes in Kashmir and Ecology and Production Studies of Some Wetlands in Kashmir. He was a very active member of editorial board of Journal of Research and Development and Journal of Himalayan Ecology and Sustainable Development.

He has supervised 15 Doctorates and 20 M.Phil. Candidates. He has been a member of various professional organizations and societies like National Institute of Ecology (NIE), Indian Ecological Society (IES), Indian Association for Pollution Chemists and Biologists (IAPCB) and International Society for Tropical Ecology (ISTE). His prominent contribution include the publication of 04 books titled Ecology, Environment and Energy, Freshwater Ecosystems of the Himalaya, Natural Resources of Western Himalaya. He has delivered a number of invited lectures at various forums at national and international level. He has also organized more than 5 conferences /seminars of local and national importance.

Prof. B. A. Ganai

Prof. B. A. Ganai born on 4th February, 1966 in Kathair Gund, District Budgam, J&K did his M.Sc (1988), M.Phil and Ph.D Biochemistry from University of Kashmir, Srinagar, Prof. Bashir Ahmad Ganai is currently serving as a Professor at the Centre of Research for Development (CORD), University of Kashmir, with over 27 years of teaching and 26 years of active research experience in the field of Biochemistry and Molecular Biology. His specialization includes Protein Biochemistry, Enzymology, Environmental Biochemistry, Toxicology, Molecular Biology, and Medicinal Plant Research, with strong expertise in modern biotechnological techniques. He is a qualified recipient of the prestigious Joint CSIR-UGC NET/JRF/SRF and is a Fellow of NESA, APSI, and ICEE.

(Oct. 2013- Nov. 2016)

(Dec. 2018- Nov. 2019)

His academic journey began as an Assistant Professor at S.P. College Srinagar, followed by his appointment as Reader/Associate Professor and later as Professor at the University of Kashmir. Throughout his tenure, he has taken on various important administrative roles, including serving as the Director of CORD and the North Campus, Dean of the School of Unani and Ayurveda Medicine, and Head departments of Environmental Science, and postgraduate programme in Microbiology. Under his leadership, departments have grown both academically and infrastructurally, with numerous successful initiatives such as the establishment of postgraduate programs, CBCS/NEP-based curricula, and the expansion of digital learning through MOOC courses.

A prolific researcher, Prof. Ganai has published over 330 research publications with a cumulative impact factor exceeding 600. His scholarly impact is further reflected by an H-index of 36, i10-index of 126, over 6,510 citations, and more than 1.6 lakh reads of his papers on academic platforms. His commitment to excellence in teaching has consistently earned him outstanding feedback ratings from students, averaging above 93% as per official university assessments.

In addition to his academic and research contributions, Prof. Ganai has played a pivotal role in fostering institutional collaborations and community engagement. He successfully revitalized the research ecosystem at the University's North Campus, facilitated the launch of integrated and interdisciplinary programs, including courses in artificial intelligence, and contributed to infrastructural improvements such as the establishment of hostels and transport services for students. His tenure has also seen the signing of key MOUs and the securing of major project grants.

Prof. Ganai is fluent in English, Urdu/Hindi, Persian, and Kashmiri. His academic vision continues to be shaped by a deep commitment to innovation, collaborative growth, and the holistic development of both students and institutions.

Prof. Fayaz Ahmad

(Nov. 2019- Sept. 2024)

Prof. Fayaz Ahmad, an eminent academician and accomplished researcher, currently serves as the Director Admissions at the University of Kashmir. After completing his M.Sc. in Zoology with a Gold Medal in 1988, Prof. Fayaz went on to earn his M.Phil in 1990 and Ph.D. in Parasitology in 1994, all from the University of Kashmir. Since then, he has remained a pillar of academic and research excellence at his alma mater. With more than 33 years of postgraduate teaching experience and over 35 years in active research. The main focus of his research is in the fields of taxonomy, fish parasitology, histopathology, and environmental parasitism.

Throughout his service, Prof. Fayaz has held several prominent positions within the University of Kashmir. He served as Head of the Department of Zoology from 2016 to 2019 and as Dean, Students Welfare from 2016 to 2017. His contributions as the Director of the Directorate of Internal Quality Assurance (DIQA) and Nodal Officer for the All India Survey on Higher Education (AISHE) from 2013 to 2016. Additionally, he has served as the Founder Coordinator of the J&K SET Agency, Director of the Statistical Unit, Coordinator of GIAN (Global Initiative for Academic Networks), Assistant Coordinator of UGC-NET and CSIR-NET, and Coordinator of the Srinagar Centre for J&K SET.

Prof. Fayaz is widely recognized for his research contributions, having published or edited 25 books and over 230 research papers in national and international journals. Under his mentorship, 18 M.Phil and 20 Ph.D. scholars have completed their degrees. His leadership in research is further demonstrated through the completion of eight major research projects funded by prestigious agencies like the DST, ICAR, and UGC.

Prof. Fayaz's contributions have been recognized through several awards and fellowships, including the "G. D. Bhale Rao Medal" conferred by the Zoological Society of India in 2018. He has also been a recipient of the Young Scientist Fellowship by Osmania University in 2000 and was honored with a Fellowship by the Zoological Society of India in 2015.

A respected educator, visionary researcher, and dynamic administrator, Prof. Fayaz Ahmad continues to inspire generations of students and scholars through his unwavering dedication, academic leadership, and commitment to scientific advancement.

**Major Research Grants of the Department**

S. No	Name of the Research Project	Amount Generated (INR)	Name of the Funding Agency	Sanction Year and Duration	PI/Co-PI
1	Emerging Contaminants in Himalayan Catchments: sources, distribution, fate of transport and management	2,39,94,000	NMHS-MOEF&CC	20-03-2025 (3 years)	Dr. Sami Ullah Bhat, Prof. M.S.Bhat, Prof. Gh. Jeelani, Dr Irfan Rashid & Dr. Anoop Ambili
2	Investigating climatic and anthropogenic impact on the groundwater quality of shallow aquifers along the flood plains of River Jhelum, Kashmir Himalaya	44,17,120	ANRF (SERB-DST)	20-02-2024 (3 years)	Dr Aasimah Tanveer, Dr. Arshid Jehangir & Dr Mohd Muslim
3	A Holistic assessment of ecosystem integrity of Kashmir Alpine Lakes through multilevel indicators	38,38,000	DST- SERB	2024 (3 years)	Dr. Aftab Ahmad & Dr. Sami Ullah Bhat
4	Study of Microplastics in drinking water of Srinagar city: An alarming threat to human health	6,20,000	JKSTIC, DST, J&K Govt.	22-12-2024 (2years)	Dr. Sami Ullah Bhat
5	Alteration in micro-RNA's expression of occupational brick kiln workers for Kashmir valley as toxic genomic response to air pollution	6,20,000	JKSTIC, DST J&K Govt.	22-12-2024 (2years)	Dr. Arshid Jehangir
6	Status, Threats and Challenges: Urgent Plea for Protection and Management of Freshwater Springs of Kashmir Himalaya	41,91,000	DST-SERB	2022 (3 Years)	Dr. Sami Ullah Bhat
7	Tipping elements and thresholds for extreme climate events in the Indian Summer Monsoon (ISM) realm (TISUR) IP3: Ecological regime shifts in response to monsoon dynamics and anthropogenic activities	Scientific Cooperation	SENCKENBERG Research Station of Quaternary Palaeontology, Germany	Since 2022	Dr. Martina Stebich Dr. habil. Sushma Prasad Dr. Arshid Jehangir
8	IP1:Reconstructing ISM and westerlies influence on Holocene hydrology, productivity and regime shifts in NW Himalaya.	Scientific Cooperation	University of Potsdam, Universität Hamburg,	Since 2022	Dr. habil. Sushma Prasad Dr. Martina Stebich Dr. habil. Birgit Gaye Dr. Arshid Jehangir
9	Assessment of the Trophic and Economic Evaluation of a Ramsar site Wular Lake, in Kashmir Himalaya	33, 27,240	DST-SERB	2021 (3 Years)	Dr. Showkat Subhan & Dr. Sami Ullah Bhat
10	Study of catchment topography and landuse impact on stream biofilms in Indus basin of Ladakh Himalayas	33,327,39	DST-SERB	2020 (3 Years)	Dr. Mohd Muslim & Dr. Sami Ullah Bhat

11	Assessment of microplastic concentrations and persistent organic pollutants in freshwater ecosystems of Kashmir Himalaya"	52,80,264	RUSA-MHRD	2020 (3 Years)	Dr. Arshid Jehangir, Dr. Sami Ullah Bhat & Dr Anoop Ambili
12	Spatial distribution of Groundwater Quality in the Kashmir Valley with special emphasis on Metal Ion Mapping 2018	56,74,000	DST-SERB	12/02/18 (3years)	Prof Muzafar Ali Andrabi & Dr. Sami Ullah Bhat
13	Anthropogenic impacts and their management options in different ecosystems of the Indian Himalayan Region	43,70,000	NMHS MoEF &CC	21/07/2017 (3years)	Prof. Kuniyal, Dr. Sami Ullah Bhat & Dr Irfan Rashid
14	National Carbonaceous Aerosol Programme (NCAP) WGIII: Carbonaceous Aerosol Emissions, Source Apportionment and Climate Effects	159,55,100	MOEF&CC	2017 (6 years)	Dr. Arshid Jehangir
15	Aquatic macroinvertebrates as Bioindicators- Approache towards understanding the Ecological health of stream ecosystems of Kashmir Himalaya	55,46,000	DST-SERB	27/09/16 (3years)	Dr. Sami Ullah Bhat
16	Water Resources (DST- FIST)	56,00,000	DST-FIST	2016 (5 Years)	Environmental Science
17	Ecological Monitoring of Dal Lake: Studies on the Periphyton, Benthos and Fish and Fisheries	18,63,000	LCMA, J&K Govt.	2012 (3years)	Prof. A. R. Yousuf & Dr. Arshid Jehangir
18	HIMPAC (Himalayan Modern and Past Climate)	Collaboration project	(GFZ) Potsdam, Germany	2011-14 3 Years	Dr. habil. Sushma Prasad, Prof. A. R. Yousuf & Dr. Arshid Jehangir

Conferences, Seminars and Workshops Organized by the Department

Local/Regional

1. One day Seminar on **“Global Eco-crisis”** 5th June, 2002, in collaboration with CORD, University of Kashmir, Srinagar.
2. One day Seminar on **“Nature Conservation in Jammu & Kashmir”** 5th June, 2003.
3. One day Seminar on **“Present Environmental Concerns”** 5th June, 2004 in collaboration with CORD, Kashmir University.
4. One day Seminar on **“Conservation of Wild Life in J&K State”** 6th Oct., 2004, in collaboration with Department of Wild life, J&K State.
5. One day Seminar on **“Environmental Awareness Among the Masses”** 11th Oct. 2004, in collaboration with CORD, Univ. of Kashmir, Srinagar
6. One day seminar on **“Environmental Degradation and Management”** 6th June, 2005 in collaboration with CORD, University of Kashmir & Department of Environment & Forests, J&K Govt.
7. One day Seminar on **“Eco-degradation”** 5th June, 2006 in collaboration with CORD, University of Kashmir & Department of Environment & Forests, J&K Govt.
8. World Environmental Week Celebrations on **“Himalayan Ecology and Sustainable Development”** from 5th to 11th June, 2007 in collaboration with PEC & JAKAS.
9. World Environmental Week Celebrations on **“Climate Change: Causes, Consequences and Control”** from 5th to 11th June, 2008 in collaboration with NSS.
10. One day Seminar on world Environment Day on the theme **“Threatened Biodiversity of Kashmir Himalaya: Causes, Consequences & Conservation”** on 5th June, 2010.
11. World Environment Week on the Theme **“Forests: Nature at your Services”** on 5th to 11th June, 2011.
12. One day Seminar on World Environment Day 5th June, 2011 on **“THINK EAT SAVE: Reduce your food prints”** P.G. Department of Environmental Science, University of Kashmir
13. One day Seminar on World Environment Day on the theme **“Green Economy: Does it Include You”** 5th June, 2012.
14. World Environmental Week on the theme **“Think.Eat.Save. Reduce Your Foodprint”** from 5th to 11th June, 2013 in collaboration with Centre of Research for Development and NSS, University of Kashmir.
15. World Environment Day-2014 on theme **“Climate Change: Raise Your Voice, Not the Sea Level”**. 5th June 2014.
16. World Environment Day-2018 on theme **“Beat The Plastic Pollution- If You Can Not Reuse It Refuse It”**. 5th June 2018.
17. One day Online Seminar on World Environment Day on the theme **“Time for Nature” Explore Nature with Iconic Spots** and Online Photographic/Artistic/Poster Presentation Competition on **“Dynamics in NATURE and Issues, Challenges and Opportunities Arising out of COVID-19 Pandemic”** 8th June, 2020.

18. Organized One day Seminar on the theme **“Living Sustainability in Harmony with Nature as there is only One Earth”** on the Eve of Observance of World Environment Day” (6th June, 2022).
19. **Awareness and Cleanliness Drive around Manasbal Lake on the Eve of Observance of World Environment Day”** (5th June, 2022).
20. One-Day Virtual-Live Symposium on **“Glacier Preservation”** on the eve of World Water Day 2025 (22nd March, 2025) organized by Department of Environmental Science, University of Kashmir, Srinagar

National

1. National seminar on **“Water Resources in India”** held on 1st to 3rd November, 2008.
2. National Conference on **“Status and Conservation of Biodiversity in India”** with special reference to Himalaya on 4th- 5th October, 2013 organized by in collaboration with Centre of Research for Development, University of Kashmir, Srinagar and The Indian Academy of Environmental Science, Haridwar.
3. Brain Storming meeting on **“Management and Sustainable Development of Dal Lake through Scientific Intervention and Stakeholders Participation”** on November 30th 2013. In collaboration with Centre of Research for Development, University of Kashmir, Srinagar and LAWDA, J&K Govt.
4. One day National Symposium on the Eve of world Environment Day on the UNEP Theme, **“Seven billion Dreams, One Planet. Consume with Care”**, on 5th June 2015 at Ghandhi Bhavan, University of Kashmir.
5. National Seminar on **Environmental Pollution “Join the Race to Make the World a Better Place”** held on 4th-5th, June, 2016.
6. 3-Day National Conference on the theme **“Changing Course in Global Environment: Challenges and Solutions”** from 4th to 6th June, 2023 On the eve of World Environment Day 2023 & 34th All India Congress of Zoology (34th AICZ) organized by Department of Environmental Science, University of Kashmir, Srinagar in collaboration with Zoological Society of India.

International

1. One day **“Special Interaction Session with Leaders of Science Including the Nobel Laureate” “Sir Tim Hunt”** held on 1st April, 2015 in collaboration with Department of Botany and Centre of Research for Development, University of Kashmir.
2. Organised international seminars entitled ***Three Day International Webinar on Water, Health and Parasites***. Sponsored by Department of Environmental Science, University of Kashmir Srinagar in collaboration with The Indian Society of Parasitology., 22-03-2021 to 24-03-2021
3. Organised international seminars entitled ***One day International online Seminar on Conserving and Restoring Ecosystems on 5th June 2021 in Observance of World Environment Day 2021***.
4. Organized One Day International Webinar entitled **Groundwater: Making the Invisible Visible** on World Water Day 22nd March, 2022.

Workshops/ Training Programs Organized by the Department

1. **First Refresher course in Environmental Science** in collaboration with ASC, University of Kashmir, 2005.
2. Two day lecture series on theme **“Environmental Impact Assessment (EIA) and Strategic Environmental Assessment (SEA)”** 03-04th June 2015.
3. One day Nature Workshop on **“Connecting People to Nature”** on the Eve of Observance of **World Environment Day** (5th June, 2017).
4. Two day Workshop on **“Water Resources-Threats and Challenges: A Way Forward”** on 22nd and 23rd March, 2017.
5. Two Day workshop on World Environment Day on the theme **“Beat Air Pollution and Recent Advances in Environmental Science”** 11-12th June 2019.
6. Organised local workshops entitled **10 days Research Methodology workshop for Research Scholars** organized by Department of Environmental Science, University of Kashmir Srinagar, 05-04-2021 to 17-04-2021
7. Organised local workshops entitled **National Energy Conservation Day**. Sponsored by Department of Environmental Science, University of Kashmir Srinagar in collaboration with Dean Students Welfare University of Kashmir dated 14-12-2021
8. Organized One week Workshop on **Science-Policy-Society-Interface under Scientific Social Responsibility (SSR)** of SERB-DST sponsored projects from 5th to 9th December, 2022 organized by Department of Environmental Science, University of Kashmir and Govt. Degree College for Women, Sopore.
9. One Day Workshop on World Water Day 2023 **“Accelerating Change to Solve the Water and Sanitation Crisis”** on 20th March, 2023, organized by Department of Environmental Science, University of Kashmir.
10. **Five day Workshop on Science-Policy interface (23-27 December 2024)** sponsored by ANRF under Scientific Social Responsibility (SSR) Organized by Department of Environmental Science, University of Kashmir in collaboration with Govt. Degree College Damhal Hanjipora Kulgam, Kashmir.

Alumni Meet

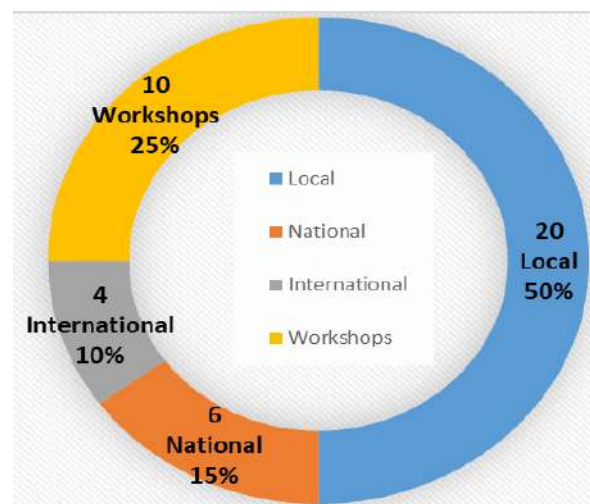

1. **Alumni Meet of the Department of Environmental Science**, University of Kashmir on 28th Decemeber, 2022 at Science Block Auditorium, organized by Department of Environmental Science, University of Kashmir.

South India Tour Batch 2021

World Environmental Day Celebrations by the Department since 2002

Research Journal of the Department

The Journal of Himalayan Ecology and Sustainable Development is a pioneering academic publication committed to advancing research and dialogue on the ecology, environment, and sustainable development of the Himalayan region. Started in 2006, the journal has grown into a premier platform for scholars, researchers, and practitioners across India to share insights, innovations, and critical findings that shape the evolving ecological discourse of the Himalayas.

Visit at : <http://envirsc.uok.edu.in/Main/Journal.aspx?J=jhesd>

With 20 published volumes and more than 200 peer-reviewed articles, the journal represents a strong legacy of academic excellence and interdisciplinary collaboration. It publishes work across a wide range of themes—including biodiversity conservation, climate change, traditional ecological knowledge, sustainable livelihoods, environmental governance, and ecosystem dynamics—all contextualized within the unique challenges and opportunities of the Himalayan region.

Notably, the journal is the only one in its domain recognized by the University Grants Commission (UGC)—**Print ISSN: 0973-7502 | UGC-CARE Approved (Serial No: 63218)**—highlighting its academic credibility and national relevance.

The journal serves as a critical knowledge resource for the entire Himalayan region. It supports informed decision-making, promotes sustainable development, and contributes to the conservation of one of the world's most fragile and vital ecosystems.

Guided by a forward-looking vision, the Journal of Himalayan Ecology and Sustainable Development strives to foster inclusive, knowledge-based approaches to conservation and sustainability, while continuing to bridge disciplinary and institutional boundaries through rigorous academic exchange.
